Commission Head: Bushra MK K al-Muttairi, PhD

1 NO POVERTY

SDG1: NO POVERTY

First Goal means ending poverty in all its forms everywhere on our globe.

Means of achieving this goal according to University of Babylon environment:

- Signing memoranda of understanding between the university and social non-government organizations,
- Holding seminars or cultural meetings aimed at achieving social justice, and the invitation is general, and to attract business owners and influence to attract donors to sponsor students with limited income or to sponsor orphans,
- Establishing charitable markets, encouraging students to master manual skills, and allocating percentages of revenues to students with limited income,
- Presenting projects and feasibility studies to decision makers in order to find and provide job opportunities for students during their studies,
- Social solidarity in students' community.
- Adopting effective policies to achieve social justice in the students' community,
- Working to eliminate social or class differences between students,
- Parental care and moral support for students with limited income,
- Adopting a uniform system,
- Formation of study fees reduction committees,
- Preparing separate databases for students with limited income.

According to the means of achieving this goal mentioned above, it is remarkable to mention that University of Babylon adopting indicators, see table 1, and suggested activities which are convenient with university strategic plan 2018-2022:
Colleges participated to achieve SDG1:

- College of Fine Arts established and accredited in1987.
- College of Law established and accredited in 1989.
- College of Medicine established and accredited in 1993.
- College of Nursing established and accredited in 2007.
- College of Arts established and accredited in 2004.
- College of Pharmacy established and accredited in 2008.
- College of Dentistry established and accredited in 2002.
- College of Quran Sciences established and accredited in 2008.
- College of Administration and Economics established and accredited in 1996.
- College of Medicine-Hamurabi established and accredited in 2017.

SDG1 progress: Activities with Indicators

Activities	2020	2021	2022
Number of MOU with NGOs			
Number of meetings and seminars			
Cultural meetings with orphans within Babel Governance			
Chartable markets to support poor people.			
Supporting students by Presenting projects and feasibility studies			
Social solidarity programs			
Working to eliminate social or class differences between students			
	Yes	No	mild
Formation of wage reduction committees,	Yes		
Preparing separate databases for students with limited income.	Yes		
Adopting a uniform system,			mild

SDG2 : Zero Hunger

Prepared by:

Member1: Rajaa Ali Moheiseen Al-Taee, PhD
Member2: Ruqaya Munther J. Ewadh, PhD
Member3: Dhifaf Adnan Ismael, PhD
Member4: Wafaa Ahmed Ameen, PhD.
Member5: Mohammed A.K.Alsaadi,PhD

Commission Head: Bushra MK K al-Muttairi, PhD

SDG2: Zero Hunger

First Goal means End hunger, achieve food security and improved nutrition and promote sustainable agriculture.

Means of achieving this goal according to University of Babylon environment:

- Supporting agricultural reclamation projects.
- Great interest in the specialization of agricultural engineering. Urging students in colleges / specialized departments to submit graduation projects and studies that advance the agricultural sector in the country as an unbeatable resource.
- Holding seminars and educating the importance of this sector.
- Supporting student activities related to environmental protection and planting fruit trees.
- Attracting and encouraging students to work in the university(flower bed) nursery.
- Supporting the Agricultural Division at the University.
- Raising slogans that support the local agricultural product:

- (Agriculture is a permanent fuel).

- (There is no virtue in people who do not eat what they grow or wear what they make).

- Palm cultivation and reproduction inside the university campus.
- Launching a project that we plant to make the future generations live and focus on trees that are compatible with the environment and geographic of the site properties of this site.

According to the means of achieving this goal mentioned above, it is remarkable to mention that University of Babylon adopting indicators, see table 1, and suggested activities which are convenient with university strategic plan 2018-2022:

Colleges participated to achieve SDG2:

- College of Fine Arts established and accredited in1987.
- College of Law established and accredited in 1989.
- College of Medicine established and accredited in 1993.

- College of Nursing established and accredited in 2007.
- College of Arts established and accredited in 2004.
- College of Pharmacy established and accredited in 2008.
- College of Dentistry established and accredited in 2002.
- College of Quran Sciences established and accredited in 2008.
- College of Administration and Economics established and accredited in 1996.
- College of Medicine-Hamurabi established and accredited in 2017.

SDG2 progress: Activities with Indicators

Activities	2020	2021	2022
Supporting agricultural reclamation projects			
Great interest in the specialization of agricultural engineering. Urging students in colleges / specialized departments to submit graduation projects and studies that advance the agricultural sector in the country as an unbeatable resource,			
Holding seminars and educating the importance of this sector			
Supporting student activities related to environmental protection and planting fruit trees.			
Attracting and encouraging students to work in the university(flower bed) nursery.			
Supporting the Agricultural Division at the University

Commission Head: Bushra MK K al-Muttairi, PhD

University of Babylon, University Rankings Unit, Sept. 2023
http://sustainability.uobabylon.edu.iq/
http://www.uobabylon.edu.iq/

SDG3: Good health and well-being

Third Goal means To ensure healthy lives and promote well-being for all at all ages. The targets of SDG 3 cover and focus on various aspects of healthy life and healthy lifestyle..

Means of achieving this goal according to University of Babylon environment:

- Working on submitting studies related to the health assurance of the community.
- Supporting specialized medical colleges and departments,
- Equipping laboratories with the required update devices to train students in the medical faculties.
- Setting Criteria of personal eligibility in admitting students for medical faculties.
- Preparing study programs and updating curricula in accordance with international standards adopted in world class universities to ensure the advancement of the health institution that has been suffering from major crises in the country for decades.
- Providing students and researchers with the latest scientific sources and periodicals and from accredited international publishers or printing houses.
- Creating specialized electronic libraries for these professions that are directly related to the individual health and ensuring his/her comfort,
- Encouraging active participation in health crises, epidemics or pandemics through experimental and practical research in team works of specialized cadres, and with response to provide all scientific supplies of materials, devices and equipment.
- Qualifying the laboratories on a regular basis to obtain the quality of laboratories according to the international standards.
- Rehabilitation of workers and their participation in human development courses.
- Commitment to teaching professional ethics to cadres and students and subjecting them to training in order to crack the moral system and its continuous decline in the country.

Regarding the situation of the COVID-19 pandemic

- Campaigns to educate the community about the virus within the university geographical location.
- Facilitating the work of health teams on campus.

- Periodic coordination of fogging and disinfection of campus buildings.
- Vaccinating students and staff with the Corona vaccine and taking preventive measures to prevent the spread of the virus,
- Preventing entry of students and affiliates who are not vaccinated with the Corona vaccine.

According to the means of achieving this goal mentioned above, it is remarkable to mention that University of Babylon adopting indicators, see table 1, and suggested activities which are convenient with university strategic plan 2018-2022:

Colleges participated to achieve SDG1:

- College of Fine Arts established and accredited in1987.
- College of Law established and accredited in 1989.
- College of Medicine established and accredited in 1993.
- College of Nursing established and accredited in 2007.
- College of Arts established and accredited in 2004.
- College of Pharmacy established and accredited in 2008.
- College of Dentistry established and accredited in 2002.
- College of Quran Sciences established and accredited in 2008.
- College of Administration and Economics established and accredited in 1996.
- College of Medicine-Hamurabi established and accredited in 2017.

SDG3 progress: Activities with Indicators

Activities	2020	2021	2022
Working on submitting studies related to the health assurance of the community.			
Establishment of specialized medical colleges and departments,			
Equipping laboratories with the latest equipment required to train students in the faculties of the medical group,			
Careful consideration in choosing the type of students for these faculties, given the country's regression in these specializations,			
Introducing study programs and updating curricula in accordance with international standards adopted in reputable universities to ensure the advancement of the health institution that has been suffering from major crises in the country for decades,			
Providing students and researchers with the latest scientific sources and			

periodicals and from accredited international publishing houses.			
Creating specialized electronic libraries for these professions that are directly related to the health of the individual and ensuring his comfort,			
Active participation in health crises, epidemics or pandemics through research and experiment, support for researchers from specialized cadres, and provision of all scientific research supplies of materials, devices and equipment,			
Qualifying the laboratories on a regular basis to obtain the quality of laboratories according to the standards,			
Rehabilitation of workers and their participation in human development courses,			
Commitment to teaching professional ethics to cadres and students and subjecting them to training in order to crack the moral system and its continuous decline in the country,			
Regarding the situation of the COVID-19 pandemic			
Campaigns to educate the community about the virus and within the geographical location,			
Facilitating the work of health teams on campus,			
Periodic coordination of fogging and disinfection of campus buildings,			
Vaccinating students and affiliates with the Corona vaccine and taking preventive measures to prevent the spread of the virus,

Annual Reports for UN SDGs 2015-2030

SDG4: Quality Education

Prepared by:

Member1: Rajaa Ali Moheiseen Al-Taee, PhD
Member2: Ruqaya Munther J. Ewadh, PhD
Member3: Dhifaf Adnan Ismael, PhD
Member4: Wafaa Ahmed Ameen, PhD.
Member5: Mohammed A.K. Alsaadi, PhD

Commission Head: Bushra MK K al-Muttairi, PhD

SDG4: Quality Education

First Goal means eliminate illiteracy and provide educational opportunities for all

Means of achieving this goal according to University of Babylon environment:

- Reviewing the policies of the Ministry concerned with kindergartens and nurseries,
- Reviewing the policies of the Ministry concerned with primary and secondary education,,
- Reviewing the policies of the Ministry concerned with vocational and technical education,
- Review the policies of the Ministry of Higher Education.
- Curriculum update annually
- Changing teaching methods and including field visits,
- Follow up the vocabulary of the curricula and activate the supervisory role in the regular periodic
- Providing up-to-date resources
- Update and build libraries,
- Encouraging students to read and study in central and public libraries.
- Training the student to learn rather than teach.
- Presenting scientific studies for the development of schools and vocational preparatory schools and raising proposals to accommodate the rates of population increase,
- Rehabilitation and restoration of schools, institutes and universities.

According to the means of achieving this goal mentioned above, it is remarkable to mention that University of Babylon adopting indicators, see table 1, and suggested activities which are convenient with university strategic plan 2018-2022:

Colleges participated to achieve SDG4:

- College of Fine Arts established and accredited in 1987
- College of Law established and accredited in 1989
- College of Medicine established and accredited in 1993
- College of Nursing established and accredited in 2007
- College of Arts established and accredited in 2004
- College of Pharmacy established and accredited in 2009
- College of Dentistry established and accredited in 2002
- College of Quran Sciences established and accredited in 2008
- College of Administration and Economics established and accredited in1996
- College of Medicine-Hamurabi established and accredited in 2017.

SDG4 progress: Activities with Indicators

Activities	2020	2021	2022
Number of MOU with NGOs			
Number of meetings and seminars			
Cultural meetings with orphans within Babel Governance			
Chartable markets to support poor people.			
Supporting students by Presenting projects and feasibility studies			
Social solidarity programs			
Working to eliminate social or class differences between students			
	Yes	No	mild
Formation of wage reduction committees,	Yes		
Preparing separate databases for students with limited income.	Yes		
Adopting a uniform system,			mild

http://www.uobabylon.edu.iq/

SDG5: Gender Equality

Fifth Goal means to end all forms of discrimination against all women and girls everywhere. Moreover, education and job opportunities at the university are equal for both sexes. Achieve gender equality and empower all women and girls

Means of achieving this goal according to University of Babylon environment:

- 1-Increasing women's participation and leadership in public life
- 2-Promote women's economic empowerment
- 3-End violence against women and girls
- 4-Implement the Women, Security and Humanitarian Program
- 5-Promote the involvement of men and boys in achieving gender equality.

According to the means of achieving this goal mentioned above, it is remarkable to mention that University of Babylon adopting indicators, see table 1, and suggested activities which are convenient with university strategic plan 2018-2022:

Colleges participated to achieve SDG5:

- College of Fine Arts established and accredited in 1987.
- College of Law established and accredited in 1989.
- College of Medicineestablished and accredited in 1993.
- College of Nursing established and accredited in 2007.
- College of Arts established and accredited in 2004.
- College of Pharmacy established and accredited in 2009.
- College of Dentistry established and accredited in2002.
- College of Quran Sciences established and accredited in2008.
- College of Administration and Economics established and accredited in1996.
- College of Medicine-Hamurabi established and accredited in 2017.

SDG5 progress: Activities with Indicators

Activities	2020	2021	2022
Increasing women's participation and leadership in public life			
Promote women's economic empowerment			
End violence against women and girls			
Implementation of the Women program for peace ,security and humanitarian Program			
Promote the involvement of men and boys in achieving gender equality.

University of Babylon impact indicators for SDG5 in 2018

Indicators	Data
Number of students starting a first degree	6176
Number of first generation students starting a first degree	921
Number of first-generation students starting a degree	
Number of women starting a first degree	3686
Number of first generation women starting a first degree	756

Indicators	Values/Evidences/ Links
Access measures	
Does your university as a body systematically measure/track women's application rate, acceptance/entry rate and study completion rate at the university?	Yes
Does your university as a body have a policy (e.g. an Access and Participation plan) addressing women's applications,	http://uobabylon.edu.iq/iso/UoBabylon-Policies-Procedures.pdf (http://uobabylon.edu.iq/iso/UoBabylon-Policies-Procedures.pdf)

acceptance/entry, and participation at the university?	
Policy created (yyyy)	2003
Policy reviewed (yyyy)	2018
Does your university as a body provide women's access schemes (e.g. mentoring, scholarships, or targeted support)?	Mentoring, Scholarships, Other targeted support `$Evidence emailed on: : $2019-01-25`
Does your university as a body encourage applications by women in subjects where they are underrepresented?	through university outreach, through collaboration with other universities and/or community groups and/or government and/or NGOs in regional or national campaigns: http://students.uobabylon.edu.iq/complaints.aspx (http://students.uobabylon.edu.iq/complaints.aspx) http://students.uobabylon.edu.iq/send_question.aspx (http://students.uobabylon.edu.iq/send_question.aspx)
Number of senior academic staff	1,040
Number of female senior academic staff	378
Number of first degree graduates by subject area	5,906
Number of first degree graduates: STEM	1,405
Number of first degree graduates: Medicine	603
Number of first degree graduates: Arts & Humanities / Social Sciences	3,898
Number of female first degree graduates by subject area	4,436
Number of female first degree graduates: STEM	780
Number of female first degree graduates: Medicine	357
Number of female first degree graduates: Arts & Humanities / Social Sciences	3,299
Policies	
Does your university as a body have a policy of non discrimination against	Yes http://uobabylon.edu.iq/iso/UoBabylon-Policies-Procedures.pdf (http://uobabylon.edu.iq/iso/UoBabylon-Policies-Procedures.pdf)

women?	
Policy created (yyyy)	1991
Policy reviewed (yyyy)	2018
Does your university as a body have a policy of non discrimination for transgender people?	No
Policy created (yyyy)	(Data missing - Error: you cannot leave question blank)
Policy reviewed (yyyy)	(Data missing - Error: you cannot leave question blank)
Does your university as a body have a maternity and paternity policies that support women's participation?	http://uobabylon.edu.iq/iso/UoBabylon-Policies-Procedures.pdf http://uobabylon.edu.iq/iso/UoBabylon-Policies-Procedures.pdf
Policy created (yyyy)	1991
Policy reviewed (yyyy)	2017
Does your university as a body have accessible childcare facilities for students which allow recent mothers to attend university courses?	free http://staff.uobabylon.edu.iq/ (http://staff.uobabylon.edu.iq/) http://repository.uobabylon.edu.iq/ (http://repository.uobabylon.edu.iq/)
Does your university as a body have childcare facilities for staff and faculty?	Free
Does your university as a body have women's mentoring schemes, in which at least 10% of female students participate?	Yes
Does your university as a body have measurement/tracking of women's likelihood of graduating compared to men's, and schemes in place to close any gap?	Yes
Does your university as a body have a policy that protects those reporting discrimination from	http://uobabylon.edu.iq/iso/UoBabylon-Policies-Procedures.pdf (http://uobabylon.edu.iq/iso/UoBabylon-Policies-Procedures.pdf)

educational or employment disadvantage?	
Policy created (yyyy)	2003
Policy reviewed (yyyy)	2018

University of Babylon impact indicators for SDG5 in 2019

SDG6: Clear Water and Sanitation

Prepared by:

Member 1: Majid. M.A. Kadhim, PhD

Member 2: Zainab A. Tolaifeh, PhD

Member 3: Firas Jabbar Hmood, PhD

Member 4: Mushrek A. Mahdi, MSc

Member 5: Faeeq Rhiad Mohammed, MSc

Commission Head: Waleed Ali Hasan Tameemi, PhD

SDG6: Clean Water and Sanitation

First Goal means Ensure access to water and sanitation for all.

Colleges participated to achieve SDG6:

- College of Engineering established and accredited in 1988.
- College of Materials Engineering established and accredited in 2007.
- College of Engineering/ Al-Musayab established and accredited in 2014.
- College of Science for Women established and accredited in 2002.
- Collage of Education for Human Science established and accredited in 1993.

SDG6 progress: Activities with Indicatorsال نفس   means

Activities Links (conferences, seminars, workshops, cultural meetings) on university website:

University of Babylon impact indicators for SDG6 in 2020

Indicators	Evidences/Links
6.2 Water consumption per person	
Measurement the total volume of water used in the university that is taken from mains supply, desalinated, or extracted from rivers, lakes, or aquifers.	Yes File uploaded: University of Babylon_Iraq_measure the total volume of water used in the university.docx
Comment	The Water and Sewage Department of the University of Babylon calculates the quantities of consumed water, collected water from rain water, and water used for irrigation of green areas and for drinking. More than 75% of the treated water of underground water and rain water as well as recycled water is used for garden sprinkler system along with washing cars, cleaning, and toilet flushing.
Volume of water used in the university: Inbound(treated/extracted water)	175,000m
Number of campus population	29,240
6.3 Water usage and care	
A process in place to treat waste water.	Yes File uploaded: University of Babylon_Iraq Treated waterconsumed.docx

Comment	The University of Babylon treats and purifies rainwater and sanitation. More than 75% of the treated water of under groundwater and rain water as well as recycled water is used for garden sprinkler system along with washing cars, cleaning, and toilet flushing
The processes to prevent polluted water entering the water system, including pollution caused by accidents and incidents at the university	No
Providing free drinking water for students, staff and visitors, e.g. drinking water fountains).	Yes File uploaded: 1.jpgFile uploaded: 3.jpgFile uploaded: 4.jpg
Comment	The University of Babylon provides free drinking water to students, faculty, and university employees
Applying building standards to minimise water use? (relevant standards to be indicated)	Yes File uploaded: University of Babylon_Iraq Water efficient appliance usage.docx
Comment	Most of the traditional water appliances in the university have recently been replaced by smart ones equipped with sensors to reduce water drainage in the university.
The plant landscapes to minimise water usage (e.g. use drought-tolerant plants)	Yes File uploaded: University of Babylon_Iraq_plant landscapes to minimize water usage.docx
Comment	Babylon University is keen to cover the largest possible area with green spaces. To do this, the university has multiplied specific plants in its laboratories as well as focused on growing thirst-tolerant and evergreen plants
6.4 Water reuse	
A policy to maximise water reuse across the university	Yes File uploaded: University of Babylon_Iraq_Water recycling program implementation.docx
Comment	The program of water recycling implementation in the main campus of the University of Babylon consists of recycling wastewater to be used for garden sprinkler system along with washing cars, cleaning, and toilet flushing. Moreover, rain water is collected using underground concrete blocks and an artificial lake and several canals that found for the purpose of saving rainwater to be fully-recycled following several stages of water treatment, including sand filtration and UV filtration before flow to tap.
Policy created (yyyy)	2006
Comment	Date of addition that policy to the University Guidance
Policy reviewed (yyyy)	2020
Comment	date of last review
Measurement the reuse of water across the university	Yes File uploaded: University of Babylon_Iraq Treated waterconsumed.docx

Comment	The Water and Sewage Department of the University of Babylon calculates the quantities of consumed water, collected water from rain water, and water used for irrigation of green areas and for drinking. More than 75% of the treated water of under groundwater and rain water as well as recycled water is used for garden sprinkler system along with washing cars, cleaning, and toilet flushing.
6.5 Water in the community	
Providing educational opportunities for local communities to learn about good water management	Free http://www.uobabylon.edu.iq/uobColeges/action_news.aspx?fid=9&nwid=43222 http://engineering.uobabylon.edu.iq/department/Default.aspx?cid=3&cdid=6
Comment	The Department of Environmental Engineering at the University of Babylon offers many seminars, lectures and research in the field of water management. These seminars are public and available to all. As for the lectures and research, they are published on the university's website and it is free and available to all.
Supporting water conservation off campus	Yes http://engineering.uobabylon.edu.iq/action_news.aspx?fid=3&nwid=46255 http://engineering.uobabylon.edu.iq/action_news.aspx?fid=3&nwid=43070 http://lerc.uobabylon.edu.iq/article.aspx?envid=52028
Comment	The Environmental Research Center at the University of Babylon offers many workshops and seminars on the topic of water conservation. These seminars are available to all. The University of Babylon also offers many doctoral and master's studies on issues of preserving drinking water and ground water in the governorate and the country in general.
The utilisation sustainable water extraction technologies on associated university grounds off campus	No
Cooperation with local, regional, national or global governments on water security	local, regional http://uobabylon.edu.iq/uobcoleges/action_news.aspx?nwid=51054&fid=7
Comment	The University of Babylon cooperates with the local and national government in the field of water security by providing studies and statistics related to this matter

SDG7: Affordable and Clean Energy

First Goal means ending poverty in all its forms everywhere on our globe.

Means of achieving this goal according to University of Babylon environment:

- Signing memoranda of understanding between the university and social non-government organizations,
- Holding seminars or cultural meetings aimed at achieving social justice, and the invitation is general, and to attract business owners and influence to attract donors to sponsor students with limited income or to sponsor orphans,
- Establishing charitable markets, encouraging students to master manual skills, and allocating percentages of revenues to students with limited income,
- Presenting projects and feasibility studies to decision makers in order to find and provide job opportunities for students during their studies,
- Social solidarity in students' community.
- Adopting effective policies to achieve social justice in the students' community,
- Working to eliminate social or class differences between students,
- Parental care and moral support for students with limited income,
- Adopting a uniform system,
- Formation of study fees reduction committees,
- Preparing separate databases for students with limited income.

According to the means of achieving this goal mentioned above, it is remarkable to mention that University of Babylon adopting indicators, see table 1, and suggested activities which are convenient with university strategic plan 2018-2022:

Colleges participated to achieve SDG1:

- College of Engineering established and accredited in 1988.
- College of Materials Engineering established and accredited in 2007.
- College of Engineering/ Al-Musayab established and accredited in 2014.
- College of Science for Women established and accredited in 2002.
- Collage of Education for Human Science established and accredited in 1993

SDG7 progress: Activities with Indicators

Activities	2020	2021	2022
Number of MOU with NGOs			
Number of meetings and seminars			
Cultural meetings with orphans within Babel Governance			
Chartable markets to support poor people.			
Supporting students by Presenting projects and feasibility studies			
Social solidarity programs			
Working to eliminate social or class differences between students			
	Yes	No	mild
Formation of wage reduction committees,	Yes		
Preparing separate databases for students with limited income.	Yes		
Adopting a uniform system,			mild

SDG8: Decent work and economic growth

Prepared by:

Member 1: Majid. M.A. Kadhim, PhD
Member 2: Zainab A. Tolaifeh, PhD
Member 3: Firas Jabbar Hmood, PhD
Member 4: Mushrek A. Mahdi, MSc
Member 5: Faeeq Rhiad Mohammed, MSc

Commission Head: Waleed Ali Hasan Tameemi, PhD

8 DECENT WORK AND ECONOMIC GROWTH

SDG1: Decent work and economic growth

It is one of the 17 indicators of the UN which measures our procedures to make jobs available for everybody and to keep our economic and social policies continuously under develop to fulfill the sustainability development goals.

Goal: promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all.

Means of achieving this goal according to University of Babylon environment:

- Increasing innovations helps to create new job opportunities
- Technological developments are important to stimulate job markets
- Holding job fairs periodically
- Encourage companies to create new horizon of green jobs
- Cooperation with international institutes of businesses to create a kind of common vision about the growth in the global economic
- Supporting small businesses
- Holding seminars and workshops to prepare students for job markets and keeping competition at high level
- Promote development-oriented policies that supports industry and economic growth
- Refining the labor rules to ensure decent work

According to the means of achieving the above mentioned goal, it is remarkable to mention that University of Babylon adopting indicators, see table 1, and suggested activities which are convenient with university strategic plan 2018-2022:

Colleges participated to achieve SDG8:

- College of Engineering established and accredited in 1988.
- College of Materials Engineering established and accredited in 2007.
- College of Engineering/ Al-Musayab established and accredited in 2014.
- College of Science for Women established and accredited in 2002.
- Collage of Education for Human Science established and accredited in 1993.

SDG8 progress: Activities with Indicators

Activities	2020	2021	2022
Number of MOU with NGOs			
Number of meetings and seminars			
Cultural meetings with orphans within Babel Governance			
Chartable markets to support poor people.			
Supporting students by Presenting projects and feasibility studies			
Social solidarity programs			
Working to eliminate social or class differences between students			
	Yes	No	mild
Formation of wage reduction committees,	Yes		
Preparing separate databases for students with limited income.	Yes		
Adopting a uniform system,			mild

Activities Links (conferences, seminars, workshops, cultural meetings) on university website:

Name/Activity	Links	Notes
Employment practice		
Payment of living wages that the university as a body undertakes for all staff and faculty members as defined by the government and according to local poverty indicator for a family	yes	
Evidence	Evidence url: http://uobabylon.edu.iq/iso/UoBabylon-Policies-Procedures.pdf	
Comment	The state paid transport fees and living wage at least US$ 34 for the family and US$ 7 for each child.	
Recognition of unions and labour rights (freedom of association & collective bargaining) at the university as a body for all workers including women and international staff	yes	
Evidence	Evidence url:	

	http://uobabylon.edu.iq/iso/UoBabylon-Policies-Procedures.pdf	
Comment	Basically, university called for partnership with academic unions, engineers union, and teachers union.	
The policy of university as a body on ending discrimination in the workplace (including discrimination based on religion, sexuality, gender, age)	yes	
Evidence	Evidence url: http://uobabylon.edu.iq/iso/UoBabylon-Policies-Procedures.pdf	
Comment	Depending on university values mentioned in the guidance of policies, the fifth value stated the equity between workers. Please, check page 3.	
Policy created (yyyy)	2016	
Comment	Date of issuance of the guidance of policies	
Policy reviewed (yyyy)	2021	
Comment	Date of the last review of the policy	
The commitment of university as a body to the policy of no forced labour, no modern slavery and no human trafficking, and no child labour	yes	
Evidence	Evidence url: http://uobabylon.edu.iq/iso/UoBabylon-Policies-Procedures.pdf	
Comment	Such commitment implicitly included within University values. Employment of children is illegal according to Iraqi law and constitution. There is a limit age as a minimum for employment. Also, there is no forced labour or modern slavery. Teaching staff are undertaken of two laws, law of civil employment and law of university employment where rights, tasks and duties are explained in details whereas staff are undertaken law of civil employment only. These laws protect all employees from forced labour or human trafficking or modern slavery.

University Commission of Sustainable Development

Annual Reports for UN SDGs 2015-2030

SDG9: Industry, Innovation and Infrastructure

Prepared by:
Member 1: Majid. M.A. Kadhim, PhD
Member 2: Zainab A. Tolaifeh, PhD
Member 3: Firas Jabbar Hmood, PhD
Member 4: Mushrek A. Mahdi, MSc
Member 5: Faeeq Rhiad Mohammed, MSc

Commission Head: Waleed Ali Hasan Tameemi, PhD

SDG9: Industry, Innovation and Infrastructure

Investments in infrastructure – transport, irrigation, energy and information and communication technology – are crucial to achieving sustainable development and empowering communities in many countries. It has long been recognized that growth in productivity and incomes, and improvements in health and education outcomes require investment in infrastructure.

Means of achieving this goal according to University of Babylon environment:

- Develop quality, reliable, sustainable and resilient infrastructure, including regional and transborder infrastructure, with a focus on affordable and equitable access for all.
- By 2030, significantly raise industry's share of employment and gross domestic product, in line with national circumstances, and double its share in least developed countries.
- Increase the access of small-scale industrial and other enterprises, in particular in developing countries, to value chains and markets.
- By 2030, upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes.
- Enhance scientific research, upgrade the technological capabilities of industrial sectors in all countries, in particular developing countries, including, by 2030, substantially increasing public and private research and development spending.
- Facilitate sustainable and resilient infrastructure development in developing countries through enhanced financial, technological and technical support to African countries, least developed countries, landlocked developing countries and small island developing States.
- Support domestic technology development, research and innovation in developing countries, including by ensuring a conducive policy environment for, inter alia, industrial diversification and value addition to commodities.
- Strive to provide universal and affordable access to the Internet in least developed countries by 2020

According to the means of achieving these goals mentioned above, it is remarkable to mention that University of Babylon adopting indicators, see Table 1.

Colleges participated to achieve SDG9:

- College of Engineering established and accredited in 1988.

- College of Materials Engineering established and accredited in 2007.
- College of Engineering/ Al-Musayab established and accredited in 2014.
- College of Science for Women established and accredited in 2002.
- Collage of Education for Human Science established and accredited in 1993.

Table 1 SDG9: Metrics with Indicators

Activities	Value
Industry, Innovation and Infrastructure: publications	
Number of patents citing research	
Number of university spin-offs	6
Research income: Total	60,000,000 IQD
Research income by subject area: STEM	20,000,000 IQD
Research income by subject area: Medicine	20,000,000 IQD
Research income by subject area: Arts & Humanities / Social sciences	20,000,000 IQD
Comment: Total university research income in Iraqi dinar. The University of Babylon has a lot of research cooperation and the exchange of experiences and benefits with organizations, factories, and governmental companies affiliated with the governorate. However, most of these benefits are not in the form of monetary amounts, so it is difficult to determine the equivalent of those benefits. The income here is approximate.	
Number of academic staff: Total	2,016
Number of academic staff by subject area: STEM	889
Number of academic staff by subject area: Medicine	376
Number of academic staff by subject area: Arts & Humanities / Social sciences	751

SDG10: Reduced Inequalities

Tenth Goal Means Reducing inequalities and ensuring no one is left behind are integral to achieving the Sustainable Development Goals. Inequality within and among countries is a persistent cause for concern. Despite some positive signs toward reducing inequality in some dimensions, such as reducing relative income inequality in some countries and preferential trade status benefiting lower-income countries, inequality still persists.

Means of achieving this goal according to University of Babylon environment:

- Measure/track applications & admissions of underrepresented groups including ethnic minorities, low-income students, non-traditional students, women.
- Having an admissions policy which is non-discriminatory.
- Delivering programmes to recruit students /staff/faculty from under-represented groups.
- Having anti-discrimination and anti-harassment policies.
- Having a diversity and equality committee, office tasked by the administration or governing body to advise on and implement policies, programmes, and trainings related to diversity, equity, inclusion and human rights on campus.
- Providing accessible facilities for people with disabilities.
- Providing support services for people with disabilities.
- Provide access schemes for people with disabilities.
- Having reasonable accommodation policy/strategy implemented, including adequately funded mechanism for persons with disability.

According to the means of achieving this goal mentioned above, it is remarkable to mention that University of Babylon adopting indicators, see table 1, and suggested activities which are convenient with university strategic plan 2018-2022:

## Colleges participated to achieve SDG10:

- College of Law established and accredited in 1989.
- College of Quran Sciences established and accredited in 2008.

- College of Administration and Economics established and accredited in 1996.
- College of Fine Arts established and accredited in1987.

SDG2 progress: Activities with Indicators

Activities	2020	2021	2022
Number of students	23210	25,462	24,240
Number of students starting a first degree	6167	7215	7,346
Number of first generation students starting a first degree	921	1163	1,233
Number of first degree students	7110	7215	7314
Number of first degree international students from developing countries	1	1	1
National rate of disability	5	5	5
Percent of students with disabilities	41	42	38
Number of employees	4345	4867	5,003
Percent of employees with disabilities	19	29	21
Related number of studends ststistics (2018-2020)

University Commission of Sustainable Development

Annual Reports for UN SDGs 2015-2030

SDG11: Sustainable Cities and Communities

Prepared by:

Member 1: Majid. M.A. Kadhim, PhD

Member 2: Zainab A. Tolaifeh, PhD

Member 3: Firas Jabbar Hmood, PhD

Member 4: Mushrek A. Mahdi, MSc

Member 5: Faeeq Rhiad Mohammed, MSc

Commission Head: Waleed Ali Hasan Tameemi, PhD

SDG11: Sustainable Cities and Communities

It is one of the 17 indicators of the UN which measures the quality of a university's output in the area of sustainable cities and communities and exploring how they act as custodians of heritage and environment in their communities, a sustainable community must have access to its history and culture in order to thrive.

Goal: How Universities supporting arts and heritage by strengthening and providing access to local cultural and heritage.

Means of achieving this goal according to University of Babylon environment:

- Promote inclusive, safe, resilient, and sustainable cities and human settlements.
- This goal is all about managing urban development.
- Well-managed cities can be hubs of innovation and prosperity.
- Their management is a big cornerstone in sustainable development.
- As more people migrate to cities in search of better opportunities, access to affordable, safe and sustainable housing becomes a priority.
- Managing urban sprawl, waste management, and air pollution are essential to ensuring the well-being, health and prosperity of our population and our environment.
- The impact of poorly planned urbanization can be seen in the growing reality of tangled traffic, growing greenhouse gas emissions and sprawling suburbs all over the world.
- Ineffective cities are a burden on taxpayers, and can even lower life expectancy.
- Proper planning and governance can help reduce these detrimental effects.

Colleges participated to achieve SDG11:

- College of Engineering established and accredited in 1988.
- College of Materials Engineering established and accredited in 2007.
- College of Engineering/ Al-Musayab established and accredited in 2014.
- College of Science for Women established and accredited in 2002.
- Collage of Education for Human Science established and accredited in 1993.

12 RESPONSIBLE CONSUMPTION AND PRODUCTION

SDG12: Ensure sustainable consumption and production patterns

The Twelfth goal means Worldwide consumption and production — a driving force of the global economy — rest on the use of the natural environment and resources in a way that continues to have destructive impacts on the planet.

Economic and social progress over the last century has been accompanied by environmental degradation that is endangering the very systems on which our future development — indeed, our very survival — depends.

.

Means of achieving this goal according to University of Babylon environment:

- -Having a policy on ethical sourcing of food and supplies.
- - Having a policy on waste disposal- Covering hazardous materials.
- - Having a policy on waste disposal- To measuring the amount of waste sent to landfill and recycled.
- - Having a policy a rounding use minimization - Of disposable items.
- - Extending these policies to outsourced suppliers and the supply chain.
- - Measuring the amount of waste generated and recycled across the university.

According to the means of achieving this goal mentioned above, it is remarkable to mention that University of Babylon adopting indicators, see table 1, and suggested activities which are convenient with university strategic plan 2018-2022:

Colleges participated to achieve SDG12:

- - College of Engineering established and accredited in 2007.
- - College of Science established and accredited in 1989.
- - College of Science for Girls established and accredited in 2002.
- - College of Engineering / Musayyib established and accredited 2014.
- - College of Materials Engineering established and accredited 2007.

SDG12 progress: Activities with Indicators

Activities	2021	2022
Amount of waste generated	200	200
Amount of waste recycled	75	90
Amount of waste sent to landfill	100	95

13 CLIMATE ACTION

SDG10: Reduced Inequalities

Thirteenth Goal means: SDG13: climate action
Climate change is affecting every country on every continent. It is disrupting national economies and affecting lives. Weather patterns are changing, sea levels are rising, and weather events are becoming more extreme. Although greenhouse gas emissions are projected to drop about 6 per cent in 2020 due to travel bans and economic slowdowns resulting from the COVID-19 pandemic, this improvement is only temporary. Climate change is not on pause. Once the global economy begins to recover from the pandemic, emissions are expected to return to higher levels. Saving lives and livelihoods requires urgent action to address both the pandemic and the climate emergency.

Means of achieving this goal according to University of Babylon environment:

- Providing local education programmers or campaigns on climate change risks.
- Impacts, mitigation, adaptation, impact reduction and early warning.
- Having a university Climate Action plan, shared with local government and/or local community groups.
- Participating in co-operative planning for climate change disasters, working with government.
- Informing and supporting local or regional government in local climate change disaster/risk early warning and monitoring
- Collaborating with NGOs on climate adaptation
- Having a target date by which it will become carbon neutral according to the Greenhouse Gas Protocols

According to the means of achieving this goal mentioned above, it is remarkable to mention that University of Babylon adopting indicators, see table 1, and suggested activities which are convenient with university strategic plan 2018-2022:

Colleges participated to achieve SDG13:

- College of Education For Humanities Studies ------
- College of Science -------
- College of Engineering Environmental Engineering----

- Environmental Research and Studies Center-----
-

Environment and Climate Change

Iraq, a nation prone to natural disasters, is made more vulnerable as a result of severe environmental degradation and neglect, weak legal and regulatory frameworks for environmental management, and weak institutional arrangements and capacities. Iraq faces many challenges as a result of climate change, including increased temperature, reduced precipitation, increased water scarcity and salinity, increasing prevalence of sand and dust storms and related disaster shocks, this create barriers to development in the post-conflict context, hampering efforts to decrease poverty, boost livelihoods and reduce conflict over natural resources. UNDP aims to contribute to Iraq's environmental rehabilitation and development efforts by addressing the root causes, risks and mitigation measures associated with environmental degradation, climate change, and disasters shocks through capacity building and technical assistance. Support for relevant ministries and departments of the national and local government, as well as the regional authorities, is designed to enable them to fulfill their legal obligations and policy and regulatory commitments to promote environmental sustainability and climate resilience in Iraq.

SDG14: Life Below Water

Fourteen Goal means   The ocean drives global systems that make the Earth habitable for humankind. Our rainwater, drinking water, weather, climate, coastlines, much of our food, and even the oxygen in the air we breathe, are all ultimately provided and regulated by the sea.

 Careful management of this essential global resource is a key feature of a sustainable future. However, at the current time, there is a continuous deterioration of coastal waters owing to pollution, and ocean acidification is having an adversarial effect on the functioning of ecosystems and biodiversity. This is also negatively impacting small scale fisheries.

 Saving our ocean must remain a priority. Marine biodiversity is critical to the health of people and our planet. Marine protected areas need to be effectively managed and well-resourced and regulations need to be put in place to reduce overfishing, marine pollution and ocean acidification.

Means of achieving this goal according to University of Babylon environment:

- Preventing and significantly reducing water pollution
- Holding seminars or cultural meetings aimed at reducing water pollution
- Having a plan to minimize physical, chemical and biological alterations of related aquatic ecosystems
- Providing laws to promote the conservation and sustainable use of the oceans and their resources
- Preparing studies concerned with protecting and preserving coastal areas and protecting them in a sustainable manner to avoid significant negative effects and taking appropriate measures in order to achieve healthy and productive oceans.
- Reducing overfishing, illegal or unregulated fishing, and developing appropriate plans to restore fish stocks in the shortest possible time
- The economic benefits of aquatic wealth, including from marine life and fish farming.
- Have an action plan in place to reduce plastic waste on campus

According to the means of achieving this goal mentioned above, it is remarkable to mention that University of Babylon adopting indicators, see table 1, and suggested activities which are convenient with university strategic plan 2018-2022:

Colleges participated to achieve SDG14:

-   College of Science established and accredited in 1989
-   College of Science for Women established and accredited in 2002
-   College of Material Engineering established and accredited in 2007
-   College. of Engineering established and accredited in1989
-   College of Law established and accredited in 1988
-   College of Faculty of Administration and Economics established and accredited in-------
-   Environmental Research and Studies Center established and accredited in 1998
-   College of Education for Pure Sciences established and accredited in 2009

Annual Reports for UN SDGs 2015-2030

SDG15: Life on Land

Prepared by:

Member1: Sura Ihsan Abed Jabuk, PhD

Member2: Hussein Saleh Najm, PhD

Member3: Ehab A. Mahmood, PhD

Member4: Nashwan . Jasim .Hussein, PhD.

Member5: Eman Samir Bhaya ,PhD

Commission Head: Aladdin Abbas Al-Sharifi, PhD

SDG15: Life on Land

Fifteen Goal Means Life on land is extraordinary. Our forests are home to more than 80% of all land-based species and our remarkable ecosystems allow us all to eat, breath and live. Yet through deforestation, global warming and meat-production, we're slowly killing our earth and its inhabitants. Before we panic, it's worth reminding ourselves, we can fix this. Goal 15 is all about working together to protect, restore and promote our planet's plants, insects and animals. By focusing on the changes we can make now to help our future, we can sustainably manage forests, combat desertification, reverse land degradation and put a stop to biodiversity loss.

Means of achieving this goal according to University of Babylon environment:

- Support or organize events aimed to promote conservation and sustainable utilization of the land, including forests and wild land.
- Have policies to ensure that food on campus is sustainably farmed low-income students, non-traditional students, women.
- Work directly to maintain and extend existing ecosystems and their biodiversity, of both plants and animals, especially ecosystems under threat.
- Offer educational programs on ecosystems (looking at wild flora and fauna) for local or national communities.
- Offer educational programe/outreach for local or national communities on sustainable management of land for agriculture and tourism. Free or paid.
- Have a policy to ensure the conservation, restoration and sustainable use of terrestrial ecosystems associated with the university, in particular forests, mountains and drylands.
- Have a policy to identify, monitor and protect any IUCN Red Listed species and national conservation list species with habits in areas affected by the operation of your university.
- Include local biodiversity into any planning and development process.
- Have a policy to reduce the impact of alien species on Campus.
- Collaborate with the local community to maintain shared land ecosystems.
- Have water quality standards and guidelines for water discharges.
- Have a policy on reducing plastic waste on campus.
- Have a policy, process or practice on waste disposal covering hazardous materials.

According to the means of achieving this goal mentioned above, it is remarkable to mention that University of Babylon adopting indicators, see table 1, and suggested activities which are convenient with university strategic plan 2018-2022:

Colleges participated to achieve SDG15:

- College of Sciences and accredited in 1989.
- College of Science for Girls and accredited.in 2002.
- College of Agriculture and accredited in 2004.
- College of Medicine and accredited in 1993.

SDG16: Peace, Justice and Strong Institutions

Prepared by:

Member1: Sura Ihsan Abed Jabuk, PhD

Member2: Hussein Saleh Najm, PhD

Member3: Ehab A. Mahmood, PhD

Member4: Nashwan . Jasim .Hussein, PhD.

Member5: Eman Samir Bhaya ,PhD

Commission Head: Aladdin Abbas Al-Sharifi, PhD

SDG16: Peace, Justice and Strong Institutions

Sixteen Goal Means this goal is dedicated to the promotion of peaceful and inclusive societies for sustainable development, the provision of access to justice for all, and building effective, accountable institutions at all levels Conflict, insecurity, weak institutions and limited access to justice remain a great threat to sustainable development. The number of people fleeing war, persecution and conflict exceeded 70 million in 2018, the highest level recorded by the UN refugee agency (UNHCR) in almost 70 years. In 2019, the United Nations tracked 357 killings and 30 enforced disappearances of human rights defenders, journalists and trade unionists in 47 countries.

Means of achieving this goal according to University of Babylon environment:

- Having elected representation on the university's highest governing body from.
- Recognition a students' union.
- Having written policies and procedures to identify local stakeholders external to the university and engage with them.
- Having an existence of participatory bodies to recognize and engage local stakeholders, including local residents, local government, local private, local civil society representatives.
- Having a publication of university financial data.
- provide outreach, general education, upskilling and capacity-building to policy- and law-makers on relevant topics e.g. economics, law, technology, climate change
- undertake policy-focused research in collaboration with government departments
- provide a neutral platform and "safe" space for different political stakeholders to come together to frankly discuss challenges?

According to the means of achieving this goal mentioned above, it is remarkable to mention that University of Babylon adopting indicators, see table 1, and suggested activities which are convenient with university strategic plan 2018-2022:

Colleges participated to achieve SDG15:

- College of Quran Sciences established and accredited in 2008.
- College of Administration and Economics established and accredited in 1996.

- College of Law established and accredited in 1989.
- College of Sciences and accredited in 1989.
- College of Science for Girls and accredited.in 2002.
- College of Agriculture and accredited in 2004.
- College of Medicine and accredited in 1993.

SDG16 progress: Activities with Indicators

Activities	2020	2021	2022
Number of graduates	6,538	5,859	5,523
Number of total graduates from law and enforcement related courses	295	335	319

University Commission of Sustainable Development

Annual Reports for UN SDGs 2015-2030

SDG17: Partnership for the Goals

Prepared by:

Member1: Sura Ihsan Abed Jabuk, PhD

Member2: Hussein Saleh Najm, PhD

Member3: Ehab A. Mahmood, PhD

Member4: Nashwan . Jasim .Hussein, PhD.

Member5: Eman Samir Bhaya ,PhD

Commission Head: Aladdin Abbas Al-Sharifi, PhD

SDG17: Partnership for the Goals

Seventeen Goal Means: SDG 17 refers to the need for cross sector and cross country collaboration in pursuit of all the goals by the year 2030. It is a call for countries to align policies. SDG 17 is a vision for improved and more equitable trade, as well as coordinated investment initiatives to promote sustainable development across borders.

Means of achieving this goal according to University of Babylon environment:

- Having direct involvement in, or input into, national government SDG policy development - including identifying problems and challenges, developing policies and strategies, modelling likely futures with and without interventions, monitoring and reporting on interventions, and enabling adaptive management.
- Initiate and participate in cross-sectoral dialogue about the SDGs, e.g. conferences involving government/NGOs
- Reviewing comparative approaches and development international best practices on tackling the SDGs through international collaboration and research.
- Collaborate with NGOs to tackle the SDGs.
- Publication of SDG reports about the university progress.

According to the means of achieving this goal mentioned above, it is remarkable to mention that University of Babylon adopting indicators, see table 1, and suggested activities which are convenient with university strategic plan 2018-2022:

Colleges participated to achieve SDG15:

- College of Quran Sciences established and accredited in 2008.
- College of Administration and Economics established and accredited in 1996.
- College of Law established and accredited in 1989.
- College of Sciences and accredited in 1989.
- College of Science for Girls and accredited.in 2002.
- College of Agriculture and accredited in 2004.
- College of Medicine and accredited in 1993.

Activities Links (conferences, seminars, workshops, cultural meetings) on university website:

University of Babylon impact indicators for SDG17 in 2020

Indicators	Evidences/ Links
Having direct involvement in, or input into, national government SDG policy development	https://uobabylon.edu.iq University of Babylon is a non-profit state University. Its website of Sustainability founded in 2010. It is ranked as the most productive university on local, regional, and global criteria to the academic year 2018-2019 ; awarded 1st Award of Minstrel Knowledge Award2018. It is tackled by the Iraqi Ministry of Higher Education frequently as other state or private universities for achieving Ministry strategic goals of Sustainability Development. University has collaborated with NGOs locally and regionally in different programs tackled with SDGs.
Initiate and participate in cross-sectoral dialogue about the SDGs, e.g. conferences involving government/NGOs	https://lerc.uobabylon.edu.iq/ The University of Babylon is highly engaged with local public sectors. Sharing with local, regional and international institutions, NGOs, and other private universities to achieve most of SDGs.
Reviewing comparative approaches and development international best practices on tackling the SDGs through international collaboration and research.	https://lerc.uobabylon.edu.iq/ http://sustainability.uobabylon.edu.iq/ University of Babylon through its Central Commission of Sustainability and of Environmental research and Studies Center working seriously to tackle UN SDGs especially relevant with Economic, Environment and Social poles. There are hundreds of articles done by University academics published in high impact factor journals stating directly or indirectly with global sustainable goals. University of Babylon has interested in implementing SDGs. It started to engage with those goals since2012. It is important to mention that University website of sustainability is completely free open access for the public. In addition, that academics made best efforts to enrich the website with different articles, researches. that are available for collecting any data. Also, academic staff are ready to engage with any projects suggested by UNIISCU or UN.
Collaborate with NGOs to tackle the SDGs.	https://www.uobabylon.edu.iq/uobcoleges/action_news.aspx?fid=5&nwid=41734 Student volunteering programmes, research programmes, development of educational resources The University of Babylon is a non-profit public university. It has been ranked as the most productive university according to local, regional and international standards for the academic year2018-2019; Received the first prize of the Minstrel Prize for Knowledge 2018. It is frequently dealt with by the Iraqi Ministry of Higher Education like other public or private universities to achieve the Ministry's strategic goals for sustainability development. The university has collaborated with NGOs locally and regionally on various programs that address

17 PARTNERSHIPS FOR THE GOALS

	the sustainable development goals. Attached are two administrative letters from on-governmental institutions that support the University of Babylon's cooperation with them in order to achieve the goals of sustainable development http://uobabylon.edu.iq/media/press.aspx?mid=52183
