Buses parked near the specified gate for Exit

Mini buses for transfereing staff daily into round trips

Large buses for transfereing staff daily into round trips

Shuttle service is available, regular and free (University of Babylon, Iraq)

### **Description:**

Herewith, it is necessary to confirm that these large and mini buses are only allowed to bring employees from their residence places to the all six sites of the university. This daily voyage starts at 6:00 am every morning from Sunday to Thursday, (weekend is Friday and Saturday all over Iraq) and each bus has its specific line, reaching specific destination in the province, stopping in specific stations for saving time. The return voyage starts at the end of the day shift work at 15:00 pm.

Those large and mini buses owned by university are ultimately not allowed to march inside the campus. Their drivers have to run them into a very close park directly reaching the gate, so their voyages inside campus are no more than 200 meters to exit the campus.

Private cars of the staff have to be parked and not allowed to be driven inside the campus. Campus population have to walk in order to reach their offices or departments..

The students use the public large and mini buses to reach the campus. There is a large park outside the campus as a last stop near the fourth south gate. To enter the campus. Also, there is a stop near the north gate of the campus. Campus has five gates according to its front 1300 m. along. Students' private cars are not allowed to enter the campus as a policy to encourage public transportation. Students have to walk inside the main campus.

Also, this is applicable into other five sites of the university. Public transportation fees are supported suitable, and available to all populations. Although the campus is 10 kilometers far from the center, the public cost into all types of transportation is fixed and supported to low status living students.
